“ I had the pleasure of coaching little league baseball with Donny. He was a great mentor to my boys during those years. We had a great run together and getting to know each other along with raising our kids together. Those memories will be remembered always.

“ *Donnie lived with us for a while before his first marriage. We had great times playing miniature golf throughout the various rooms in my house. Many fun times working and traveling with this guy. The highlight was when he selected the wrong horse when we went horseback riding in Reno. His horse went crazy and put Donnie in the hospital with a broken arm. His coach at Stanislaus was not happy because they were going back east to play in their world series. But that was Donnie, always trying to do crazy things. He will be truly missed.*

*I remember that incident. I think the horse was named Rooney or something close.*
