“ Dr. Esho cared for both my children from the time they were newborn babies (they are now 17 and 20). We saw her many instances over the years as we dealt with various health concerns- some minor, some complicated. She was a safe space for our whole family, and I knew we were in good hands. We loved and trusted her so very much. I wish I could've told her all the thousands of kind and grateful thoughts I had of her over the years. We will miss you, Dr. Esho. The Soria family

“ Thank you Dr Esho for always being a good and curious Doctor. You treated both of my boys with kindness and determination to find out if they are healthy. You treated them like you just graduated and it was your first day. I am definitely sure you were treated all of your patients that way. Thank you for the 15 years that you treated my boys. I know ur in heaven looking down and are with other family. My condolences to ur family and friends. I will never forget you. Thank you for your Contribution to the public.

“ My family is very sad at the loss of a wonderful physician who took great care of my four children. One baby was minutes away from being intubated and airlifted to Bay Area and she came in at 5AM and stabilized him and he was able to stay at EMC until we'll enough to go home. We are thankful for her excellent care and our community will miss her. Our prayers go out to her family.
Sincerely,
King family

“ As our hearts beat with the heart of Mother Earth, may the memory of Dr. Esho be a light for us to never take one moment of life for granted and to be inspired by her beautiful soul. Her life was proof that if you work hard and with dignity on this planet, you can share the material and cultural goods human beings need. May she eternally Rest In Peace.
