“ Sending my condolences to June's family. This woman was a Turlock institution. Before I danced at her studio, my dad (Beaver Hanson) and my aunt (Cindy Morgan) danced with her. I have lots of good memories of my time at her studio - was dancing there when the Loma Prieta earthquake occurred. Us kids didn't notice the ground moving while were tapping away. Rest in peace, June! You brought a lot of joy to people during your life and we thank you for that!

“ Wow. She lived to be 94. Dancing must have kept her healthy. What a creative person she was. I remember all the adorable dance outfits our mothers made for us under June Jane's tutelage. I still have the green satin mini-dress with leopard print trim that I wore with my group to tap dance to "Perfidia."

“ I am saddened to hear of June Jane's passing. She was my dance teacher when I was extremely young. She must have had the patience of a saint while dealing with me and my two left feet. I LOVED her energy, smile and positive attitude! Throughout the years I did retain several things from these dance lessons: how to count to eight (even when we started with the number 5); dance recitals involved a lot of makeup and were a tad scary; and the step-ball-change move.
I sincerely wish her loved ones peace and strength during this difficult time.

I have so many fond memories of June from many years of dance lessons in the 60s and 70s. She was the best! I especially remember her every Christmas when decorating my tree with some of the dance-themed ornaments she made for her students every year.

*June, you were my idol! I wanted to be just like you. I was about 3 when I started at the Turlock School of Dance. We moved to Pacific Grove when I was in the 3rd grade My first car was even a 59 Metropolitan just like hers. After a dancing, acrobatic and circus career I taught dancing and gymnastics for about 30 years in Southern California just like June. I remember so many kids from the studio. Kathy Okimara, Moya Schultz, Sandy, Donna Parkins, Kristy Cabral and the Babba Sisters and their fantastic polynesian dancing. I got to see her senior dancers perform in Pacific Grove in about 1996ish. It was so fantastic to see her again! I thank June and John for setting me on a path to my future. I am now 70 years old and have so many fond memories of my time there. You will be missed by so many. .
