“ All I have to say is Tinty treated like a brother, actually he treated me better than my two brothers treat me. I will always miss and love you Tinty!

“ He supported me his whole life, I looked up to him my whole life growing up for his creativity and his sensitivity. My fondest memory is when we would do shows performing and he hit the stage with no shame doin' his turntable air scratch dance which i later adapted when i performed w/ Rob Base at Sac Kings basketball game where our sister Arlene made it as well to see performance, my brother Tinty was gettin' sick already where he couldnt make it, but i did the turntable air scratch dance jus' like him awwwww man ill be missing u bro until we dance again forever you big bro imma miss u main!

“ A memory for me about Tinty is him and his VW square back. Also another memory is being at the flea market. I haven't had much contact with the family for several years, hearing of this sad moment made me think of how precious family is and how it should be. The last time I saw Tinty was at Uncle Manuel's funeral.

To my Aunt, Arlene, and Craig and families wish we could connect and be close. Life is not promised and we should make the best of it while we can. Whatever separated us is in the past. Let's try to be a FAMILY and be there for each other all the time not only when a tragedy happens.

Sending my Love and condolences to the Family
From Michael Venegas.

“ I remember when I got my first bike, Timer aka Tinty said “Hey let me fix your brakes”, I let him and when he finished he had me do a test drive. I rode me bike and he yelled out BRAKE! I did only to flip over on my face. Still a great memory. I remember him in Street Escorts car club, all great memories from my cousin. He will never be forgotten!

“ Some of my favorite childhood memories are with Tinty making chopper stingray bicycles and having a blast. He'll certainly be missed.

“ So much memories that I have, from when I was super young, me and Tinty loved playing on the swings in the backyard on Haga Dr, San Jose, wow, for Christmas time we couldent wait to watch Rudolph the Red Nosed Reindeer, we would laugh at how the reindeer would fly We would get all our presents and make a pile and couldn't wait till morning to open. As a big brother he protected me. He used to take me to school in his Tbird, listening to his music, he loved his Tbird, that was his first car and that's when his love for cars began, so, so, much more to say but, for his remembrance we will be doing a Hotwheel theme. He will be missed
