“ *Mike was one of a kind. His laugh was infectious and above all he loved his children and grandchildren. He may not have made it to President of the United States, but, he was "President" of the "Grandpas" club. My life and my children's life will not be the same without him. I will miss his quick wit. Through the years when life could get heavy he always had a way of making you laugh through the difficulties that were in your life. He is/has been the true Patriarch of the "Huber" family. It is not goodbye, but, "See you later Dad".....love you more than you will ever know.....Jeanie*

“ We were all little kids when Mike worked with my Dad,, we still talk about that time in our life when all of the guys would meet over the house and drink coffee before they headed out to work on some pipeline in the city
