“ *Clara and I will forever remember her and miss her as she did so much to help us get started in our earlier years.*

“ *My best memories of my grandmother Eloise are of the time she spent alone with me and my sister Cathy. We had her undivided, loving attention. She never fully outgrew her own childlike outlook on living life. Being around young children brought out the best in her. Her steadfast confident style of parenting at that point in her life complimented what my mother provided for me, and years later when my niece was born I used her as my "parenting" role model. I will always carry her memory in my heart as long as I walk this earth.*
