“ *I loved Dr Larsson. He was the best vet I could have ever asked to have care for my pets. He saved my dogs life. I called him on a Friday night at 6 PM crying because my dog had eaten a bone that had punctured her stomach. He happened to answer. He said bring her in. He operated immediately and slept with her that night calling me ever few hours. Then he let me make payment over time. I stayed with him for ten years until he had to retire. Rest in Peace Dr Larsson. I miss you. Mary*
