“ cont..2

i remember about everything we shared together!! we wrecked my dads honda 350 & he would pop wheelies on the catwalk w/ me. i can truly say that he was a GOODHEARTED goodlooking guy.we were friends for 8yrs. we are both geminis. he had a "great" "smart" head on his shoulders.he would often tell me "MIND OVER MATTER".i do not have an Email,therefore if you (anybody)would please call my cell #408-509-2079, as i suspect he may have died in a motorcycle accident!?! but thats just my feeling. i would very much appreciate knowing what caused his untimely death.was he married w/any children? was he happy,successful,fat or slender? i just want to reach out to you for some answers as im unable to get him off my mind,& sure i feel some guilt for not ever calling him after moving away to Turlock,although he did come back to see me after i had a new relationship and a 6mo.old baby. basically im at fault for not keeping in contact.I can honestly say that i miss him and will always have nothing but love for him! Iv'e been asking GOD to let stacey know how much he meant to me!! all my life i never forgot all of our wonderful memories. he was a lover,not a fighter.
